PRODUCTION CALENDAR

This calendar should only be used as a guide. Always refer to specific sections in the manual for further information.

OPERATION	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
GROWTH REGULATION												
Stop drop												
GA – creasing												
GA – rind quality												
Ethrel® – thinning												
FERTILISING												
Leaf analysis												
Application – drip												
Application – broad												
Application – foliar		Zn + Mn	Copper				Urea			Zn + Mn	Mg	
CULTURAL PRACTICES												
Hand thinning												
Pruning												
Skirting												
Hedging												
Gypsum												
Cover crop												
DISEASE CONTROL												
Copper												

OPERATION	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
IRRIGATION												
Drip/Sprinkler												
Pre-harvest dry				Navels				Valencias				
Critical periods	Drought				Leaching					Flowering and fruit set		
HARVEST PERIOD CARE												
Navels												
Navels – Oleo testing												
Navels – Maturity												
Valencias												
Valencias – Oleo testing												
INSECT CONTROL												
LBAM												
Scale												
Aphids												
Thrips												
Flatids/SC bug												
Mealybug												
Snails		INSPECTION		Baiting and copper					Inspection and controls			
Predator Release			Aphytis melinus							Aphytis melinus		
WEED CONTROL												
Herbicides – residual												
Herbicides – knockdown	As required
